NUCLEAR SCIENCE ABSTRACTS

Cumulative Index

Volumes 11 through 15
1957-1961

PERSONAL AUTHORS (P-Z)

UNITED STATES ATOMIC ENERGY COMMISSION
Division of Technical Information

The Personal Author Index comprises three volumes. This three-volume set is for sale by the Superintendent of Documents, U. S. Government Printing Office
Washington 25, D. C. Price $14.25

Managing Editor

John W. Norris

Assistant Managing Editor

Donald D. Davis

Production Editor

Lawrence T. Whitehead

Technical Editors

David E. Bost
Thomas R. Henley

Scheduling and Publishing Coordinator

Henry H. Lansford

NUCLEAR SCIENCE ABSTRACTS

CUMULATIVE INDEX

All of the indexes appearing in Volumes 11 through 15 have been cumulated into this index and corrections and minor revisions have been made. Therefore, this index supersedes the separate indexes to the five volumes.

This cumulative index consists of four parts, all available from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., for $40.25. The four parts are also available separately as follows: Corporate Author Index ($2.50), Personal Author Index ($14.25), Report Number Index ($4.50), and Subject Index ($19.00).

Organizations currently receiving *Nuclear Science Abstracts* free of charge from the Atomic Energy Commission will also receive the cumulative indexes without charge.

The cumulative Subject Index will include a list of the Journal Abbreviations used in *NSA*.

Cumulative indexes for Volumes 1 through 4 (1947-1950) and Volumes 5 through 10 (1951-1956) are available as follows:

Volumes 1–4 from Johnson Reprint Corp., 111 Fifth Ave., N. Y., N. Y. ($30.00).

Volumes 5–10 from Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. ($5.25).

Legal Notice

The AEC reports listed in this document are accounts of Government sponsored work. Neither the United States, nor the Commission, nor any person acting on behalf of the Commission:

A. Makes any warranty or representation, expressed or implied, with respect to the accuracy, completeness, or usefulness of the information contained in these reports, or that the use of any information, apparatus, method, or process disclosed in these reports may not infringe privately owned rights; or

B. Assumes any liabilities with respect to the use of, or for damages resulting from the use of any information, apparatus, method, or process disclosed in these reports.

As used in the above, "person acting on behalf of the Commission" includes any employee or contractor of the Commission, or employee of such contractor, to the extent that such employee or contractor of the Commission, or employee of such contractor prepares, disseminates, or provides access to, any information pursuant to his employment or contract with the Commission, or his employment with such contractor.

Nuclear Science Abstracts is published twice a month by the United States Atomic Energy Commission to provide abstracts of the literature on nuclear science and engineering. It is available on subscription from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. It is also available on exchange to universities, research institutions, and publishers of scientific information from the Division of Technical Information Extension, U. S. Atomic Energy Commission, P. O. Box 62, Oak Ridge, Tennessee.

INTRODUCTION

Each entry under a personal author is a shortened version of the title of the publication, the *NSA* volume number, and the abstract number. If the work cited is a report, the report number is given in parentheses.

Names of editors and translators are included but are not identified as such.

Surnames with prefixes, e.g., De, Le, Mac, and Van are filed by the prefix and as one word regardless of how the name is written. The prefix St. is filed as Saint.
